

Learning Journal Guidance Sheet

Set up your page with the date (top right) and Focus (top central)

Wednesday 25th March 2020

Focus: I can understand the lifecycle of a bird and write about the different stages.

On one page of your journal draw the lifecycle of a bird.

You will need to research your chosen bird and complete the stages with pictures, labels and some writing that explains what happens in each stage of development.

I have included an example of this as a guide but please present this in your own chosen way, including colour and fine liner if possible.

The Bird Life Cycle

Complete by drawing a picture and writing a title and an explanation for each stage.
